

TIPS & ADVICE

POTTY TRAINING ON THE GO

TIPS FOR LONG TRIPS

Packing up for a road trip or flight? Keep these travel tips in mind:

1. Bring easily removable clothing for your toddler for quick changes.
2. Plan frequent potty visits.
3. Check out the airplane bathrooms before the flight.
4. Consider Pull-Ups® training pants for a little extra security.

MAKE A PLAN

Going potty like a Big Kid™ is new to your toddler. So, when you're out and about, here are a few things you should keep in mind:

- Scope out the bathrooms first in an unfamiliar place & pay attention to your Big Kid's™ cues.
- Make finding the toilets a game.
- Show them how public toilets flush so the loud noise won't be as scary.

PACK A POTTY TRAINING KIT

Don't retire your diaper bag just yet! Remember your potty training essentials and take them with you on your trip.

- A change of clothes in case of accidents
- A portable potty seat
- Stickers or small potty rewards
- Any must-have potty props that help your toddler train better
- Potty Flash Cards to reassure your toddler the process is the same
- Pull-Ups® training pants
- A travel pack of flushable wipes
- A resealable bag for any wet clothes
